

## **General Guidelines and Precaution - Thermal Interface Material**

- Use the product within the specifications, as indicated in the data sheet.
- Material performance is dependent on how the product is used or installed and other variables of the application.
- Do not use the product beyond the specified temperature range.
- Do not rub or touch with rough material to avoid scratching it. Handle with care as physical damage on the product may affect performance.
- Do not touch the product with bare hands during operational use as it can be extremely hot when mounted on IC device or heat sink.
- Do not reuse the product after removal from the installation.
- For storage
  - Shelf life will be 1 year after shipment. It is recommended to use the product within the specified period to avoid degradation of performance.
  - Keep the product sealed in original packaging when not ready to use or during storage.
  - Store the product in clean, dry, cool and dark environment with temperature between 19° to 25° C.
  - Avoid storing in spaces with corrosive chemicals or gases.
- Use of TIM
  - Follow the installation procedure provided by manufacturer for best result. Any deviation from recommended steps in the guideline may compromise product performance and/or functional failure.

### **Disclaimer**

The information and data above are offered in good faith and believed to be accurate and will not serve as product specifications. No warranty, either expressed or implied, is hereby made with respect to such information, and we assume no liability resulting from its use. The recommended industrial hygiene and safe handling procedures are generally applicable; however, each user should make their own investigations, in the specific context of the intended use and determine whether they are appropriate. This product is developed and manufactured for industrial use only. For medical or other special applications, the user must take the responsibility to carry out necessary tests and validation to ensure its suitability.

In no event shall Inspiraz Technology be liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential or exemplary damages, however arising, even if Inspiraz Technology has been advised of the possibility of such damages.
